Certainly. On the line you had:

- 1) Ganesh Panneer, Vice President and General Manager, Automotive at Novelis and Chair of the Aluminum Transportation Group
- 2) Mario Greco, Director of Global Marketing, Automotive at Arconic.
- 3) Fiona Bell, Director, Communications and Government Affairs, Novelis North America

Good connecting with you as well. I'm attaching our latest material – some of which you may have seen before but the charts on vehicle fleet safety and lightweighting are new (not included in our comments last year).

As always, if we can be helpful in any way don't hesitate to reach back out.

Thanks,
Matt

Subject: Participants from today's meeting with EPA Office of Air and Radiation

Dear Matt and Joe,

Thank you for meeting with EPA earlier today.

Delaney in the Office of Air and Radiation front office has sent to me the hands outs that you all provided today. Lee Cook and I were on the phone from Ann Arbor, and we were a few minutes late and missed the introductions. Can one of you please let me know who from the member companies participated in today's meeting?

Thanks
Bill
